

## 2. History of the company

**Detektor Ltd.** is a privately owned limited liability company established under the laws and regulations of the Bosnia and Herzegovina. It's principal place of business and main office is in Banja Luka, Bosnia and Herzegovina.

Detektor Ltd. was founded in the late 1997 and registered for mine clearance and technical survey operations. With the establishment of the humanitarian mine action capacity in the Bosnia and Herzegovina Detektor Ltd. was among one of the first commercial companies to start developing human and mechanical capacities for providing services of humanitarian mine and unexploded ordnance clearance in Bosnia and Herzegovina.

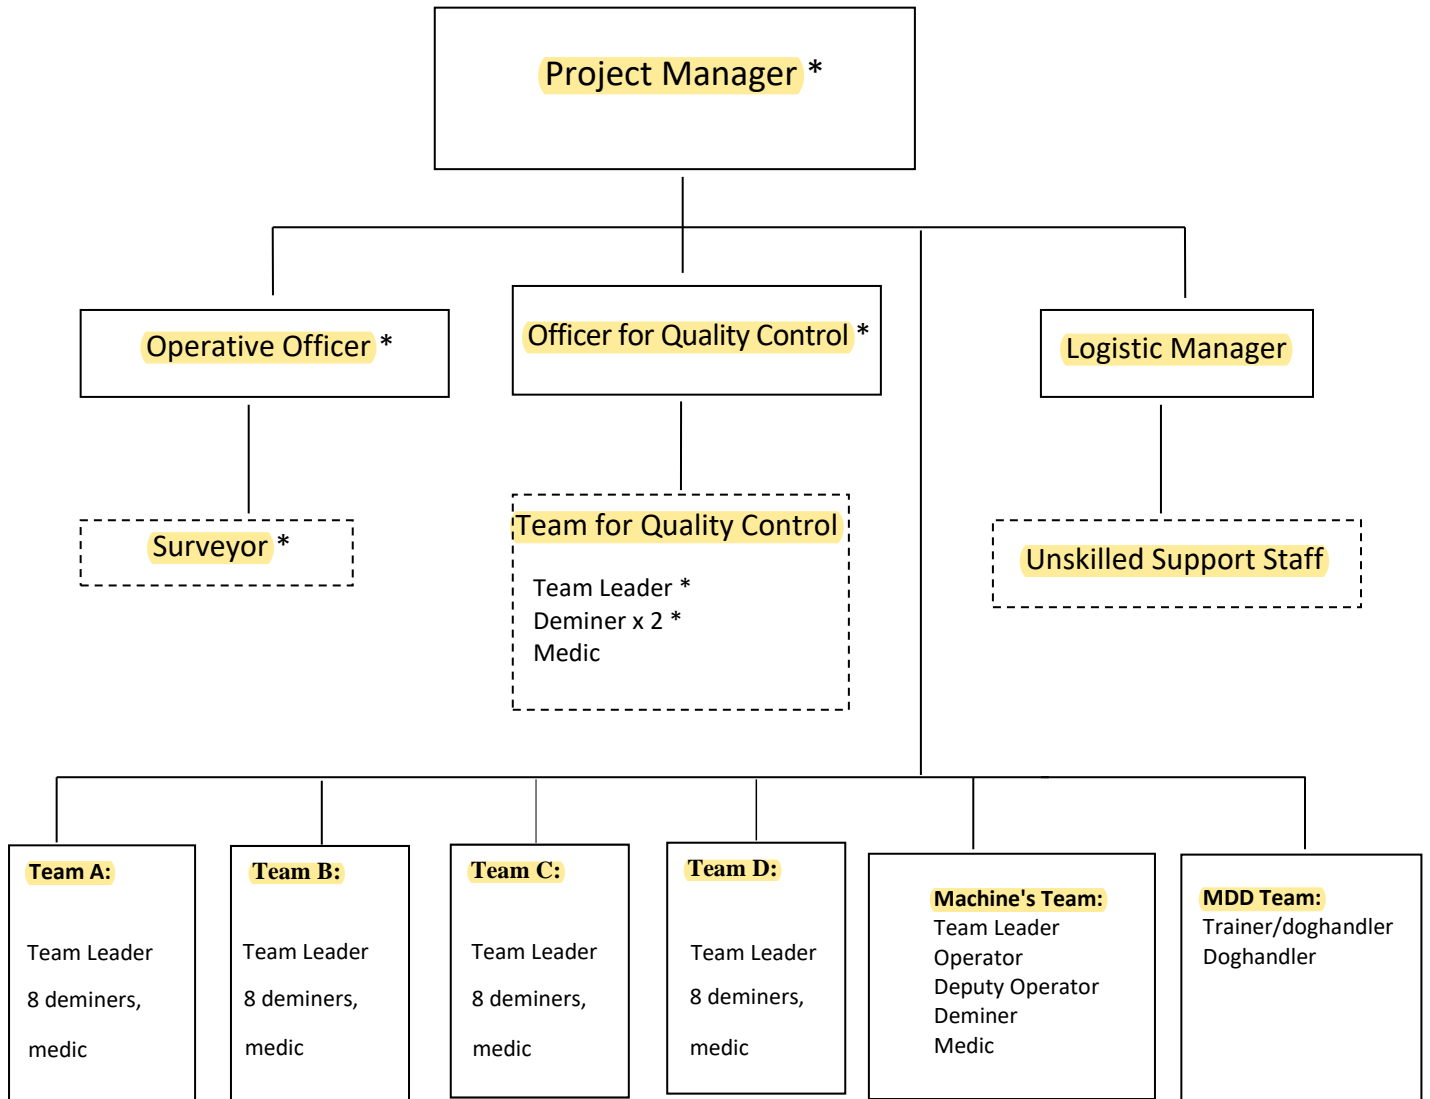

During the initial time of organization Detektor Ltd became fully operational with its own management, equipment and deminers.
